

Project Design Phase-I - Solution Fit Template

Project Title: Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau

Team ID: LTVIP2026TMIDS35233

Visualizing Housing Fit Canvas: Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau				
Define CS, Fine CS	1. CUSTOMER SEGMENTS (CS) - Real estate analysts - Property buyers & investors - Real estate agencies - Housing market researchers	2. JOBS-TO-BE-DONE / PROBLEMS (J&P) - Analyze housing price trends - Identify key factors affecting house prices - Compare prices across locations and features - Make data-driven buying/investment decisions	5. AVAILABLE SOLUTIONS - Excel sheets with raw data - Manual statistical analysis - Static reports Limitations: - Hard to interpret patterns - Time-consuming analysis - No interactive exploration	Explore AS, differentiate
	2. JOBS-TO-BE-DONE / PROBLEMS (J&P) - Analyze housing price trends - Identify key factors affecting house prices - Compare prices across locations and features - Make data-driven buying/investment decisions	9. PROBLEM ROOT CAUSE (RC) - Housing datasets are large and complex - Hidden relationships between price and features - Lack of interactive visualization tools - Difficulty in identifying patterns and correlations	7. BEHAVIOUR (BE) Current behaviour: - Download housing datasets - Perform basic filtering and calculations - Create simple charts without deep insights	
Enrich CS, Refine CS	3. TRIGGERS (TR) - Rising property prices - Need to predict market trends - Difficulty understanding large housing datasets - Demand for visual insights for decision-making	4. EMOTIONS: BEFORE / AFTER Before: Confused, uncertain, overwhelmed by raw data After: Confident, informed, clear understanding of price trends	8. CHANNELS of BEHAVIOUR (CH) Online: - Real estate websites - Data dashboards - Online property listing platforms	Formal canvas
	4. EMOTIONS: BEFORE / AFTER (EM) Before: Confused, uncertain, overwhelmed by raw data After: Confident, informed, clear understanding of price trends	10. YOUR SOLUTION (SL) An interactive Tableau dashboard: using Tableau to visualize housing market trends. Key Features: - Sale price analysis by location, size, and features - Interactive filters for bedrooms, area, and year built - Trend analysis charts and comparison visuals - Helps users understand housing price patterns - Supports smart buying and investment decisions - Converts raw data into meaningful visual insights		
One-Line Summary: An interactive Tableau dashboard that visualizes housing sale prices and features to reveal market trends and support data-driven real estate
