

Project Design Phase-I

Proposed Solution Template

Date	20 February 2026
Team ID	LTVIP2026TMIDS35233
Project Name	Visualizing Housing Market Trends: An Analysis of Sale Prices and Features using Tableau
Maximum Marks	2 Marks

Proposed Solution Template:

Project team shall fill the following information in proposed solution template.

S.No.	Parameter	Description
1.	Problem Statement (Problem to be solved)	Housing data is large and difficult to understand. Users cannot easily find trends in sale prices and house features from raw data.
2.	Idea / Solution description	Create an interactive Tableau dashboard to visualize sale prices, house age, bedrooms, bathrooms, and renovation details using charts and filters.
3.	Novelty / Uniqueness	The project shows multiple housing features together in one interactive dashboard for easy comparison and analysis.
4.	Social Impact / Customer Satisfaction	Helps buyers and analysts understand housing trends clearly and make better property decisions.
5.	Business Model (Revenue Model)	Can be used as a paid analytics dashboard for real estate companies and property websites.
6.	Scalability of the Solution	The system can be expanded by adding more city data, live property data, and more advanced visualizations.
